

Philipp Hansch

GREIFSWALDER STR. 40 • 10405, BERLIN

0151 578 00 976 • DEV@PHANSCH.NET • [GITHUB.COM/PHANSCH](https://github.com/phansch) • [PORTFOLIO](#)

Experience in software development, most recently specializing in Javascript, including

- 2 years of professional Ruby on Rails experience
- Game development in Lua with Love2D as well as C# and XNA
- Desktop development in Java and C#, including interfacing with Oracle and SQL on Windows and Linux

Experience

Oct 2014 - Feb 2016

Junior Rails Developer at Mobile Event Guide GmbH

- Development and optimization/maintenance of customer facing tools:
 - CMS based on Ruby on Rails, including CoffeeScript, JQuery and Bootstrap 3 in the frontend
 - Mobile Website based on AngularJS and Ionic Framework, with a RethinkDB backend
 - Integration of customer interfaces for data imports (Ruby)
- Development and optimization/maintenance of internal tools:
 - Mobile app building system to configure and build iOS/Android apps (Ruby/Ruby on Rails)
 - Infrastructure automation with Ansible, Puppet and Mina

Jan 2014 - Sep 2014

Freelancer for Ruby on Rails

- Working with a team of Freelancers on different Ruby on Rails applications.
- Experience with Rails 4 and Postgresql on the back-end
- Experience with HTML5, CSS3 and Backbone.js on the front-end
- Setup and configured automated deployment infrastructure with TravisCI and Heroku
- Responsible for picking team communication and project management tools

Winter 2013/2014

Participant in Hackership

- Learning Ruby on Rails in a self-directed learning environment. Working on a web application that helps people learn touch-typing.

December 2013

Beginners Coach at RailsGirls Berlin Hackday

- Helping programming beginners gain a basic understanding of how programming works. Creating a basic Rails application and answering questions along the way.

Projects

Image Streamer

[Source on GitLab](#)

Send screenshots to Sinatra server and have them neatly pushed to all connected clients.

PiDefender

[Source on GitHub](#)
